**50th Anniversary**

**Symposium**

**Military Medical Operations:**

**U.S. Response to the Fukushima Daiichi Incident**

**March 27–29, 2012**

The Symposium will bring together experts to discuss the U.S. military response to the Fukushima Daiichi radiological incident following the March 11, 2011, earthquake and tsunami in Japan. Representatives from each of the services and participating government agencies will discuss their agency's role in the crisis. Experts will discuss such topics such as radiation detection, force protection, and risk communication.

The goal will be to encourage collaboration and discuss accomplishments as well as lessons to apply during radiological events in the future.
